

# Different Strokes

## A Game of Collaborative Painting and Color Mixing

Designed by Jack Murray

2-4

15-30 minutes

8+

Players take turns filling in a grid to create a **collaborative work of art**.

**However**, each player has their own idea of what the final piece of art should be.

Players take turns **adding strokes** to the canvas and can even paint over previous strokes to create a new color on that square.

**The player who completes their pattern first wins!**
